## YOUR WEDDING – WHAT WE PROVIDE

A typical wedding reception lasts around five hours, from your guests' arrival to the farewell. For a seamless and memorable experience, we recommend booking Macarthur Entertainment's **Complete Entertainment Package**—featuring five hours of DJ entertainment and a dedicated MC for the entire evening.

This all-in-one service ensures consistency, with both professionals fully briefed and working together to deliver a polished, well-coordinated event. From the perfect music selections to smooth transitions and on-time scheduling, we'll help create an unforgettable celebration that flows effortlessly from start to finish.

**How important is an MC?** An MC plays a vital role in ensuring your wedding reception flows seamlessly from start to finish. Acting as the event's host, our professional MCs work closely with venue management and staff, expertly coordinating formalities, catering services, entertainment, photography, and speeches. With their warm presence and attention to detail, they keep everything running smoothly and on schedule—allowing you and your guests to relax, enjoy the celebration, and create lasting memories.

**DJ inclusions:** Professional Sound System | Wireless Microphone | Mood Lighting for effects (around DJ desk) plus an extensive list of music to choose from.

## COMPLIMENTARY CONSULTATION

**What to Expect:** When you book Macarthur Entertainment, we're dedicated to making your wedding day unforgettable. Approximately two weeks before your big day, we'll arrange a final meeting with you and your fiancé to fine-tune your music selections and personalise the soundtrack for your celebration. This ensures our DJ can source and programme your chosen songs in advance, creating the perfect atmosphere from your grand entrance to the final dance. If you've selected our MC service, they'll also attend the meeting to coordinate the flow of your reception, discuss speeches, and review the running order—ensuring everything runs smoothly, so you can relax and enjoy every moment.

## On YOUR WEDDING DAY

Our DJ will arrive at the venue approximately 45 minutes to an hour before your reception to set up. They're happy to take song requests from your guests while ensuring your preferences are followed, including any bands or music you'd prefer to avoid. From your formal entrance and easy-listening background music during meals to the cake cutting, bridal dance, party hits, and farewell, every moment will be perfectly soundtracked to suit your style.

*Please contact our office for final quotation and availability or if you have any other queries.*
