- ❖ Duo vocalists either play guitar or keyboard or a combination of both and provide a great sound with their fabulous vocal harmonies.
- ❖ Three-piece entertainers (Trio) add an additional dimension to the sound. With three professionals producing music you can imagine how the sound fills out.

### WEDDING BAND

- ❖ A Wedding band is great for that full live entertainment sound that you may be looking for. Generally, a 4 -5 piece band comprises vocals, guitars and drums. A band is not only restricted to these instruments as some bands incorporate keyboard, saxophone or other popular instruments.

**NOTE:** It is important to check with the venue re available space for a band based on your proposed numbers and final floor plan.

### WEDDING DJ

- ❖ A DJ is a popular choice by Wedding couples as they provide a very large variety of music, from easy-listening selections during dining occasions to upbeat / party songs on the dance floor. You are able to select your choice of songs and artists, or you can allow the DJ to select the most appropriate music for your Wedding based on your taste in genre or performers. Our DJ's are also are happy to take requests from your guests should you permit so.

### MASTER OF CEREMONIES (MC)

- ❖ How important is an MC? The responsibility of the MC is to ensure that your evening flows without a hitch. Our MC's work closely with the function centre management and staff so that the formalities and catering services are co-ordinated with the entertainment and speeches.

### SOUND PRODUCTION

All performers and DJ's have their own production equipment including PA system and basic lighting. DJ's also have a wireless microphone available for speeches.

## Wedding MC & DJ Entertainment

### WEDDING DJ AND MC PACKAGE

Our recommendation should you wish to book a DJ or MC, is that Macarthur Entertainment provide you the total Entertainment package.

The package includes 5 hours of DJ entertainment as well as an MC for the entire night. This provides consistency, knowing that all professionals have been briefed accordingly and work well with each other, providing professional service for your event.

The DJ and/or MC will meet you and your fiancé, together with a Macarthur Entertainment consultant prior to your Wedding to discuss speeches and song selection. The MC and DJ's we provide are well groomed, polite, professional, and possess an obliging attitude that will ensure your Wedding function flows as you would expect.

### INDIVIDUAL AND COMBO ENTERTAINMENT

Should you require a combination of entertainment - eg having a soloist or duo performing for your Ceremony or during canapé service, followed by a DJ and an MC for the Reception, we would be happy to accommodate this package to suit your requirements.

Please contact our office for final quotation and availability or if you have any other queries.

## WEDDING EXTRAS

### ❖ Fireworks

Wedding fireworks provide that element of awe and extra touch to your special celebration. A jaw-dropping display which not only is captured as your life memories, but also provides an amazing effect for you and your guests at your venue on your special day.

You may want a burst of fireworks happening whilst you enter the reception room or when you cut your wedding cake. Perhaps when you take each other onto the dance floor for that very first dance as husband & wife, a firework burst adds to the aesthetic and makes premium photography.

Electric Fireworks create stunning displays without the fire risks that may be of a concern with your venue. They are safe and risk free.

### ❖ Dry Ice

This 'smoke across the floor' display is an amazingly effective addition to not only your first dance, but also whilst cutting the cake or exiting the function room. This is known as Dry Ice. You may have seen this at weddings or on television and movies. We can certainly arrange for the best quality Dry Ice effect and an operator to ensure that timing is spot-on for those extra special photos.

NOTE: The Pyrotechnics technicians use state of the art equipment, offering professional lighting visuals & dry ice display technology to compliment your needs. All jobs are logged through work cover, council, police and fire departments, and are covered by our \$20M public liability insurance.

### ❖ Additional Lighting

Enhanced lighting at your function centre will add to the wonderful atmosphere for your special day. Macarthur Entertainment can provide you with over 16 million colour variations which include popular amber and UV lighting. We can even match the colour of the bridesmaid dresses.

Our state-of-the-art lighting effects will illuminate your venue in any colour or theme of your choice. Options include sound activate lighting, spotlight for cake table and first dance, up Lighting (floor lighting beaming up a wall or pillar), Wi-Fi controlled battery powered lighting with a multitude of colour variations and modes.
