## YOUR WEDDING – WHAT WE PROVIDE

Typically, a Wedding Reception is 5 hours in duration from guest's arrival into the room to farewell. Our recommendation should you wish to book a DJ or MC, is that Macarthur Entertainment provide you the total Entertainment package. We include 5 hours of DJ entertainment as well as an MC for the entire night. This provides consistency, knowing that all professionals have been briefed accordingly and work well together, providing professional service for your event and ensuring that everything runs smoothly and on schedule.

**How important is an MC?** The responsibility of the MC is to ensure that your evening flows without a hitch. Our MC's work closely with the venue management and staff so that all the formalities and catering services are co-ordinated with entertainment, photography and speeches.

**DJ inclusions:** Professional Sound System | Wireless Microphone | Mood Lighting for effects (around DJ desk) plus an extensive list of music to choose from.

## COMPLIMENTARY CONSULTATION

**What to expect:** Should you choose to book Macarthur Entertainment, we will arrange our final meeting with you and your fiancé approx. 2 weeks prior to your Wedding to discuss and personalise your song and music selection for your Reception. This will allow our DJ to source and programme your specific music in advance. Our MC will also attend if selected to discuss your speeches and running order of procedures.

## YOUR WEDDING DAY

Our DJ will arrive at the venue to set-up prior to your Reception (approx. 45 min-1 hr). They are happy to play song requests from guests, along with noting & following your requests for any bands/music you don't like. Your song preferences are included for the function – from formal Intro, easy-listening dining music during meals, cake cutting, bridal dance, party songs, to farewell and conclusion.

Please contact our office for final quotation and availability or if you have any other queries.
